

# Haemovigilance lessons and perspectives from FRANCE

**Bernard Lassale, Gérald Daurat, Martine Besse-Moreau**

**S.F.V.T.T.**

# Haemovigilance in 1994

**Blood  
Product  
Delivery**

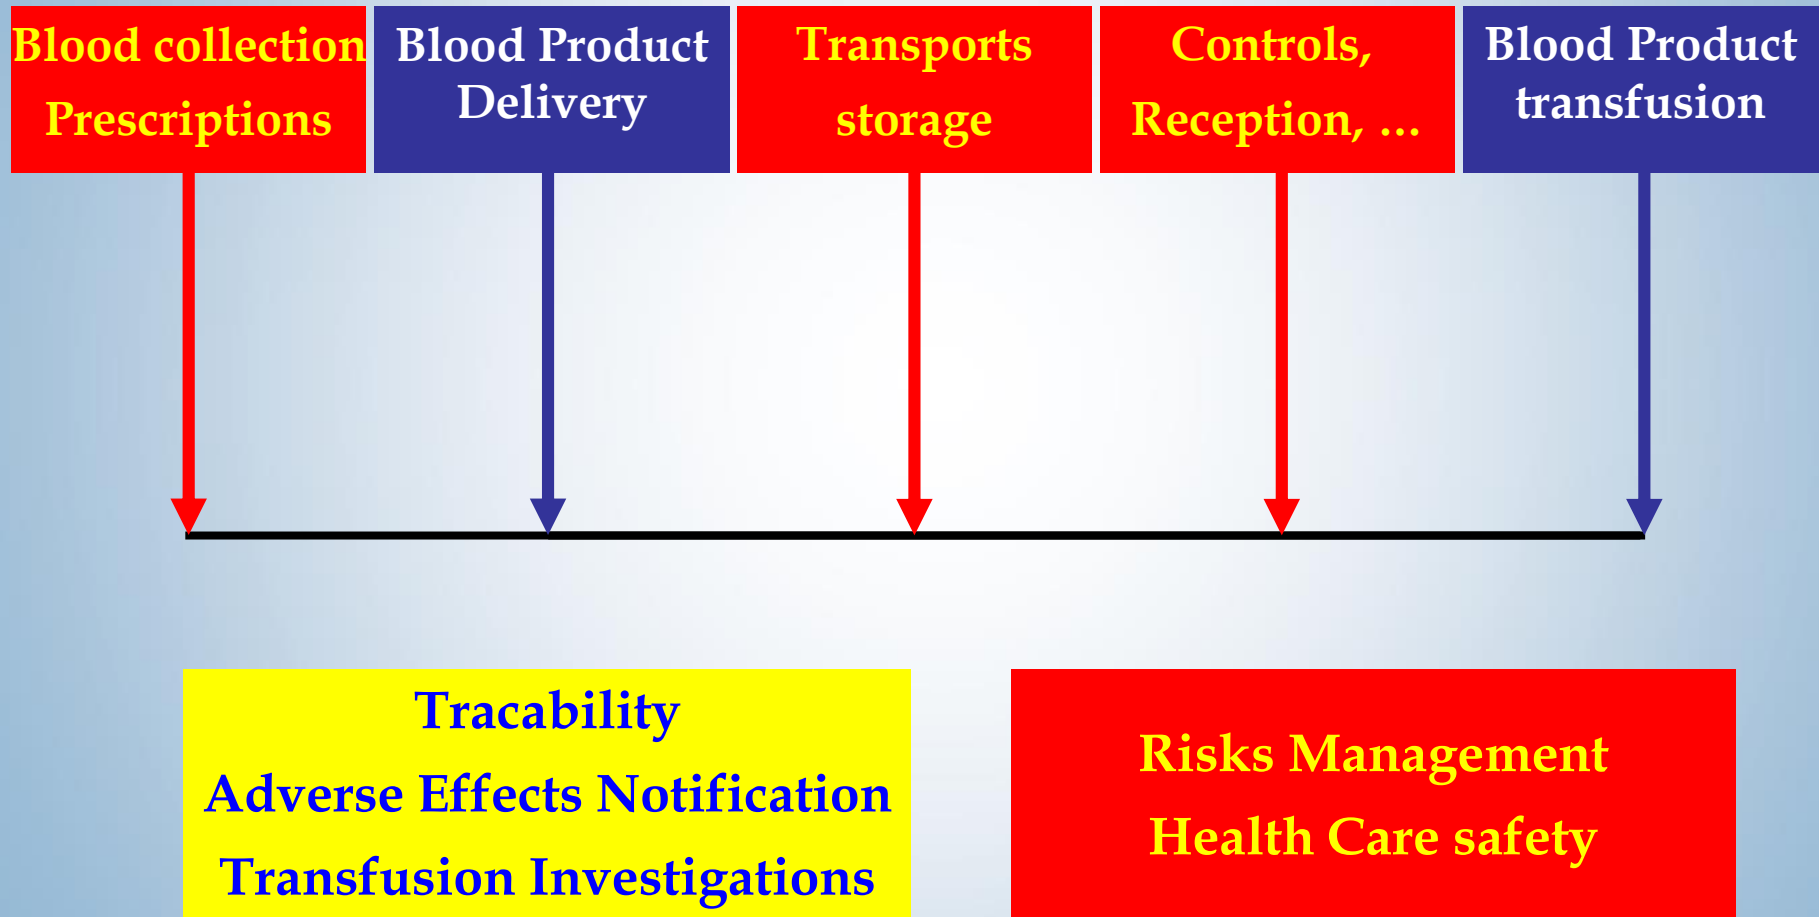

**Blood  
Product  
transfusion**

**Tracability**

**Adverse Effects Notification**

**Transfusion Investigations**

## A POSTERIORI DYSFUNCTIONS ANALYSIS

- ALARM method
- dysfunctions identification
- Morbi Mortality reviews

## A PRIORI RISKS APPROACH

- mandatory hospital certification (8j criteria)
- to allow innovative quality tools (check-list, audit, ...)

## BLOOD PRODUCTS PRESCRIPTIONS RELEVANCE

- High Health Authority recommendations
- the setting up of medical procedure
- the carrying out of audits

## IDENTITYVIGILANCE

- necessary for health care pathway
- close collaboration with the Identityvigilance unit
- in France 6 % family names are born by 50 % of the people

## REWRITING OF TRANSFUSION ACT TEXTS

## PROFESSIONNALS TRAINING

- e-learning, quizz
- transfusion simulation

## BLOOD DONORS HAEMOVIGILANCE

- a priori risks' study of blood product manufacturing process
- emerging risks

## COLLABORATION BETWEEN FRENCH BLOOD TRANSFUSION ESTABLISHMENT AND HEALTH CARE INSTITUTIONS

### TRANSFUSION ACT COMMISSION

### PLASMAS SD QUESTION
